Lyle: I can not remeber how to reset the service engine reset on my Kubota Tractor. It was built in 2007. Please advise: Double Orange: Lyle, I have an '07 5240, so the re-set should be the same.

Kubota L4330 service indicator reset - SSB Tractor

Many owners give the following tip: when the tractor's engine is started, press the AUTO REGEN switch. Your auto regeneration feature is now on. You are free to go about your work, and the DPF will automatically recondition. Keeping the RPM up at all times (about 1900 – 2000) will keep the engine temps high enough to aid DPF regeneration.
